

The Falkoping Model for Biomethane

**A training event organised
under the Biogasmax project.**

**International House, 45 Rue du Commerce
Brussels, 10th May 2010**

- Aimed at those who are interested in learning more about this model, and understanding it's capabilities in more detail.
- Interactive training on the model will be given by the model's creators.
- Will help users move from the "light" model into the more comprehensive "advanced" model, and get more useful and specific results for their area.

Falkoping Model Training

A training event organised under the Biogasmax project.

Brussels, 10th May 2010

- >> 10:00** Arrival and Registration
- >> 10:20** Welcome
Introduction to the training, and short background to the Biogasmax project
Tom Parker (TTR)
- >> 10:40** About the model
Covering the basics of the Falkoping model, its capabilities and recommended uses.
This will ensure that all attendees have an understanding of the model and will make the afternoon sessions more useful.
- >> 11:20** Coffee Break
- >> 11:35** The Scenario – Introducing Symbio City
The interactive sessions will be set in a fictional location, Symbio City.
The relevant details about the city will be described, in preparation for the sessions.
- >> 12:05** Lunch
- >> 13:05** Interactive sessions
Each interactive session will present a particular scenario, have a discussion about the scenario, then use the model to understand how different inputs affect the system, and to illustrate the characteristics and features of the model.
- >> 13:05** Interactive session: scenario 1
- >> 13:55** Interactive session: scenario 2
- >> 14:45** Coffee Break
- >> 15:00** Interactive session: scenario 3
- >> 16:00** Round-up
- >> 16:15** Departure
